## RECORD-BREAKING FUEL EFFICIENCY MTU ENGINES FOR A CLEANER PLANET.

Greater fuel efficiency means fewer emissions. Modern farmers use MTU power to ensure fuel efficiency comes standard for their agricultural machinery such as tractors, potato harvesters and corn choppers. High torque at low engine speeds, coupled with significant cost savings due to low fuel consumption, offers peak performance. And with a long service life, easy maintenance, and long service intervals, MTU's diesel engines offer value, reliability and efficiency.
